

Addendum 9

Questions 2

9/28/22

I would like to submit the following Questions regarding the above referenced project:

1. Section VII Proposal Contents, item D. Company References Capacity and Experience. This section states to list 5 references for completed projects similar to the work described in the RFP. Can the Contractor and Design consulting firm both submit 5 references or is 5 the total amount of references we can submit?

**A: Yes, both the contractor and the design consulting firm may submit 5 references each.**

2. Section VII *Proposal Contents* states the proposal shall not contain more than 60 pages of written material exclusive of attachments. Please remove not to exceed page limits on RFP sections should certain sections not need the page count listed above their respective sections.

For the VII. Proposal Content Section, each section has a page limit;

- A - Company Information - 10 pages
- C - Proposed Project Approach - 20 pages
- D - Company References, Capacity, and Experience - 10 pages
- E - Cost Proposal - 10 Pages
- F - Exceptions & Comments - 10 pages

Our question is, if one section doesn't take up the max-page limit, can those excess pages contribute to another section. For example, let's say our Company Information only fills 8 pages, if needed, can we use the additional two pages for our Proposed Approach, making the proposed approach 22 pages. Ultimately, we understand the page limits for the various sections, but we were hoping to have that removed and just stick to the overall page limit max of 60 pages.

**A: 60 pages is the overall max limit for all sections. Flexibility is ok on mixing and matching between sections**

3. The RFP states a bid bond needs to be submitted with our proposal. The RFP also states that proposal may be submitted either by hand OR by email. If we plan to submit our proposal by email, will a scanned copy of the bid bond be sufficient? Or will the bid bond have to be mailed in and received prior to the bid date?

**A: Yes, a scanned copy of the bid bond will be sufficient.**

Additionally, per addendum 4, it states to provide 15% level design drawings as part of our proposal, can this be included as an attachment and not go against the page limit requirement?

**A: Yes, this can be included as an attachment and not go against the page limit requirement**
